

# SATELLITE EUTELSAT 117 WEST B

## POWERFUL REGIONAL CAPACITY FOR THE AMERICAS

### A multi-satellite neighbourhood

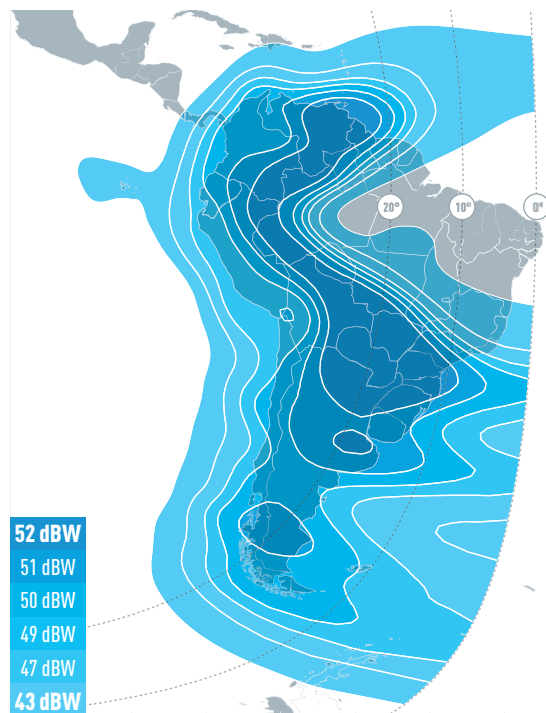

The EUTELSAT 117 West B satellite offers four regional Ku-band beams with exceptional coverage of Mexico, Central America and the Caribbean, the Andean region and the Southern Cone. Located at 117° West, the premium TV neighbourhood for Latin America, the satellite strengthens DTH and DTT video capacities at the multi-satellite neighbourhood which is used by Millicom's Tigo, Star Group and Televisa. Around 500 TV channels, 150 in HD, are currently distributed to over 100 million TV homes across the continent, from 117° West.

EUTELSAT 117 West B also offers key services to telecom operators and government service providers in Latin America, and features a new-generation WAAS (Wide Area Augmentation System) payload operated by Raytheon as prime contractor for the U.S. Federal Aviation Administration (FAA).

EUTELSAT 117 West B is commercialised by Eutelsat Americas
